

Your story as a spatial practitioner

Context

How do you view your practice? How do you define your work? How did you come to study architecture? Where is your curiosity leading you? Many of you will not work as architects in the future. You may diverge into other fields. You might, however, remain spatial practitioners. Tell me a story about you, as a spatial practitioner.

Requirement

Prepare a 3 minute story about your purpose or vision as a spatial practitioner / architect.

Technical aspects

- Relay a key memorable message about your purpose or vision as a spatial practitioner / architect.
- Manage to engage the audience's imagination, and allow them to empathise with your message.
- Include vocal variety that considers *pitch, pace, power and pause*.
- Have a well worked out structure and organisation with a beginning, middle and end.
- You can use a image/sketch/poster/object to assist in your presentation.

Assessment

The presentation is marked according to the principles of Ethos, Logos, Patios, and Kairos.
